Dear Alex,

Unfortunately, there is currently bad weather offshore and all STS operations have been suspended

We have several other jobs to accommodate after weather clears. Earliest possible delivery would be around 4th January onwards

Let me know if any interest

Thank you

Best Regards,  
Vicky Adamou

(Document is available at [www.bimco.org/Bimco documents/Sundry other forms](http://www.bimco.org/Bimco%20documents/Sundry%20other%20forms))

SOLAS / NEW REGULATION

=====

With effect from 1 July 2009 please note that according SOLAS Reg VI/5-1 marine fuel suppliers are obliged to provide to the ship - prior to delivery- - with a Material Safety Data Sheet (MSDS) for each type of oil fuel to be delivered to the ship. This MSDS should contain instructions on safe onboard handling of the corresponding fuel product.

MARPOL

=====

Delivery to be conducted in accordance with Marpol Annex VI regulation 14 & 18 in respect of:

- Sulphur content
  - Sampling (Statutory sample)
  - BDN (Bunker delivery note)
- Sampling

=====

In accordance with the guidelines under resolution MEPC.96(47) supplier has to draw the Statutory sample at the vessel's manifold by using one of the following devices:

- Manual valve-setting continuous dripsampler
- Time-proportional automatic sampler
- Flow-proportional automatic sampler

If the vessel to be bunkered do not have one of the above sampling devices installed we expect the supplier to provide the necessary equipment to draw the Statutory sample. When drawing a sample at this location we strongly suggest to draw a sufficient amount of litres also to cover the 'commercial' samples for the delivery. The vessel require 3 samples i.e. the Marpol sample, a sample to be sent for analysis and one retain sample in case of a quality dispute.

BDN (Bunker Delivery Note)

=====

The delivery receipt to contain min. following information:

- Name and IMO number of receiving vessel.
- Port of bunkering.
- Date of commencement of delivery.
- Name, address and telephone number of bunker supplier.
- Product name(s)

- Quantity (metric tons) of bunkers delivered.
- Density at 15 deg.c. (kg/m3).
- Sulphur content (% m/m) – actual figure as per relevant ISO test method.
- A declaration signed and certified by the supplier's representative that the fuel oil supplied is in conformity with regulation 14 (1) or (4)(a) and regulation 18(1) of Annex VI.
